PAINTBALLING FOR KIDS

First things first. Paintball hurts, and it hurts a lot which is why we think it is unfair to let juniors fire at each other. However, they doesn't mean to say they can't have fun.

Stretton Circuit have devised a Paintball Safari for junior sharp shooters to target in on. Under strict supervision, juniors are guided through a series of challenges in our shooting gallery based events.

These events are limited in time by the number of paintballs issued. So, if you wish the event to run longer, just ask us to issue more paintballs. Each member of the group is given 100 balls at the start of the game, enough to last them 30 minutes. Its a great way to blow off steam and have some fun in the process, you might even get to shoot the marshal !

KARTING FOR KIDS

What a great way to celebrate that special occasion. Whether it's a birthday, the football team end of season treat or even a good school report, Stretton Circuit will help you to make this a memorable day and have the kids talking about it for weeks after.

We have a fleet of 10 specially designed junior Karts and with adjustable seats and restricted performance to accommodate young drivers between the ages of 10 and 16 years (1.4m or 4'7" height restriction). These karts have the added attraction of being speed controlled by our marshals in case the youngsters decide to be over-enthusiastic.

Junior Party Package - (minimum 5 drivers)

The children arrive and are treated to the same full safety briefing as any adult group. They are then issued with their race suits for the day and given an additional track briefing to help with the basic principles of racing lines and braking points. By now, they begin to feel like the real thing as the anticipation levels start to rise.

Only when we are completely satisfied that they have understood everything are they sent out onto the circuit for the first of their sessions (a 3 lap instructional session). At least one marshal accompanies each group in a kart during the session so that we can keep a very close eye on everyone and ensure that safety remains paramount. They are sent out for the 15 minute timed session. At the end of the session, food can be provided for an addition small charge and you are more then welcome to add to the occasion by bringing your own cake, balloons and banners.

Twin seater Kart

A great addition to our fleet is the New Twin Seat Kart. This allows any child who is unable to drive themselves due to age or height restrictions to still experience the thrill of karting by being driven by one of our experienced marshals. This kart can also be used in conjunction with a Children's party event

Practice Sessions

If you are not planning a party but would just like your child to kart then why not treat them to a practice session. Again, a full briefing is given along with all the hints and tips they can ask for to help improve their driving.

Instructor training

Full driver instructor training is available on a one to one basis to MSA standards.
